## TRAININGS

### **Namaste React Course**

NamasteDev, Online

Jan 2024 - Jan 2024

I have completed a comprehensive React masterclass from the NamasteDev platform, where I acquired in-depth knowledge of React, ranging from fundamental concepts to advanced topics. This training has significantly enhanced my proficiency in React development, enabling me to tackle complex frontend challenges with confidence.

### **Angular (Intermediate)**

Hackerrank, Online

Sep 2023 - Sep 2023

Certificate link:

<https://www.hackerrank.com/certificates/5d88756bf053>

I have successfully completed an intermediate-level Angular coding test on the HackerRank platform, earning a certification that highlights my proficiency in Angular development. This achievement demonstrates my advanced understanding of Angular concepts and my ability to solve complex problems using Angular.

### **Angular MasterClass**

Educative, Online

Sep 2023 - Sep 2023

Certificate Link: <https://www.educative.io/verify-certificate/pg03njFOD39g59XQXF78DxZyZzkph2>

I have successfully completed an Angular masterclass on the Educative platform, obtaining a certification that validates my comprehensive understanding of Angular development. This course covered advanced Angular concepts and best practices, enhancing my skills in building robust and scalable web applications with Angular.

### **Angular (Basic) Certificate**

Hackerrank, Online

Aug 2023 - Aug 2023

Certificate link:

<https://www.hackerrank.com/certificates/d6a289f53a78>

I have successfully completed a basic Angular coding test on the HackerRank platform, achieving a certification that validates my understanding of foundational Angular concepts. This certification underscores my commitment to mastering Angular and my ability to apply its principles to real-world problems.

### **Javascript Full Stack Web Development (MERN STACK)**

TryCatch Classes, Mumbai

Dec 2021 - May 2022

I am pursuing training in full stack Javascript web development (MERN STACK)

It consists of MongoDB, Express, React, Node.js.

### **Front-End Web Development With React**

Coursera, Online

Oct 2021 - Oct 2021

Certificate link:

<https://www.coursera.org/account/accomplishments/certificate/78J873DATBWB>

## PROJECTS

I have successfully completed the 'Front-End Web Development with React' course on Coursera, which has provided me with a solid understanding of working with class components in React. This course covered key concepts and techniques for building interactive and dynamic web applications using React, further enhancing my skills in frontend development.

### **My portfolio website (Personal Project)**

Feb 2024 - Feb 2024

<https://my-portfolio-omega-gray-16.vercel.app/>

This is my portfolio website where I have uploaded all my projects. I developed this website using ReactJs and CSS.

### **Youtube thumbnail downloader tool (Personal Project)**

Feb 2024 - Feb 2024

<https://youtube-thumbnail-downloader-three.vercel.app/>

I have developed a YouTube thumbnail downloader web application that supports multiple languages (English, Spanish, Hindi, German). Users can simply paste a YouTube video link to download the thumbnail in four resolutions: max res 1280x720, high quality 480x360, medium quality 320x180, and standard quality 640x480.

### **UI Development of Reports, Wallet modules of PayNearby (Company project)**

Jun 2022 - Jun 2023

<https://retailerportal-uat.paynearby.in/auth/login>

Due to security reasons I have provided UAT link; as UAT environment is always under development so for optimal view kindly access via laptop or desktop .

Login:9623950123, Admin@123 ,OTP: 12210 Access the retailer top-up report from Ledger.

### **UI Development of Login flow of PayNearby . (Company Project)**

May 2023 - May 2023

<https://retailerportal-uat.paynearby.in/auth/login>

Due to security reasons I have provided UAT link; as UAT environment is always under development so for optimal view kindly access via laptop or desktop .

Login:9623950123, Admin@123 ,OTP: 122103

### **UI Development of Instructions to cash deposit module of PayNearby (Company project)**

May 2023 - May 2023

<https://retailerportal-uat.paynearby.in/auth/login>

Due to security reasons I have provided UAT link; as UAT environment is always under development so for optimal view kindly access via laptop or desktop .

Login:9623950123, Admin@123 ,OTP: 122103

## UI Development of the Credit card module (Company project)

Jan 2023 - Jan 2023

<https://retailerportal-uat.paynearby.in/auth/login>

Due to security reasons I have provided UAT link; as UAT env. is always under development so for optimal view kindly access via laptop or desktop .

Login : 9623950123, Admin@123 ,OTP: 122103

Credit card number: 4998814998621555

Mobile no. 9623950123

## UI Development of Money transfer module of PayNearby (Company project)

Jun 2022 - Dec 2022

<https://retailerportal-uat.paynearby.in/auth/login>

Due to security reasons I have provided UAT link; as UAT environment is always under development so for optimal view kindly access via laptop or desktop .

Login : 9623950123, Admin@123 ,OTP: 122103

Money transfer login: 9623950123

## Medium blog post (Personal Project)

Mar 2024 - Present

<https://medium-blog-post.onrender.com/>

This blog application allows users to write and publish their own blogs, as well as listen to blogs using integrated text-to-speech functionality powered by ChatGPT APIs. The application also features an admin dashboard for managing blog content. Built with React, Redux, Firebase, and ChatGPT APIs.
